COMPUTER SCIENCE STUDENT

A passionate student in the world of programming and software development, studying Jadara University. I am focusing my studies on web development. I enjoy working on open-source projects because they offer me the opportunity to learn from a large community of developers and exchange ideas and experiences. In the future, I aspire to work at a leading tech company where I can leverage my expertise and expand my knowledge by working on large and innovative projects. I believe that programming is not just a profession but a passion that can change the world for the better.

KEY COMPETENCIES

HTML5	C#	C++
CSS	ASP.NET Core	Ui/UX
JavaScript	SQL Server	

PROFESSIONAL EXPERIENCE

UI/UX DESIGNER
